

# ONLINE PATIENT PORTAL ENROLLMENT AND AUTHORIZATION

Lexington Medical Center is excited to announce the launch of LMC FollowMyHealth, the hospital's new online patient portal.

LMC FollowMyHealth is an easy-to-use online tool that allows you to view lab and test results, review office visit summaries and make bill payments. In the future, patients with an LMC FollowMyHealth account will be able to request appointments and prescription refills, and send secure messages to their doctors' offices.

For questions regarding the new online patient portal, please call (888) 670-9775 or email support@followmyhealth.com.
